

Easy Access through two-piece, walk-thru windshield, hard-charging Sport looks forward to shallow, twisting waterways
Sport with Mercury 200hp Optimax Sportjet

“It Handles Like a Wooldridge!”

Of course that’s because it is a Wooldridge!

The Sport with a 200hp Sportjet is a hot rod. It accelerates hard and has a great top end.

“The inspiration for this go-fast, go-anywhere machine was for our friends in Alaska who want a small boat with lots of power and the ability to get into tight places where they’re not comfortable taking a bigger boat,” explains Glen Wooldridge.

There’s lots of room in this Sport and it has the fuel capacity for getting into the backcountry, with 45 gallons of fuel storage tucked under the floor of this all-welded aluminum boat.

And, it is a stout boat. As in all Wooldridge Sportjets the bottom basically has a double hull down the center of the planing surface. That means .350" of aluminum protection against impact damage.

Of course there are the many other benefits common with Wooldridge Boats, the large two-piece walk-thru windshield and recessed bow for easy access for folks and bulky gear. There’s a forward walk-around as well.

The forward wing provides extra wave

Wooldridge Sport is a hot rod with Mercury 200hp Optimax Sportjet. It has a beefy bottom, lots of internal structure and loads of room for boaters and their gear. Special Wooldridge bucket enhances reverse thrust (see back page).

deflection and that two-piece windshield offers excellent visibility for the driver, sitting or standing.

The toe kick along the gunnels means extra security for fishermen when they are working the fishing rod.

Another convenience that Wooldridge engineered into this Sportjet powered Sport is the large removable transom access panel. That means easy access for service and maintenance.

On the water, the get up quick and go fast

isn’t the only attribute that jumps out. This boat has a great reverse, thanks to a special Wooldridge reverse bucket Glen created for the Sportjet (it is available to retro fit 200 Optimax Sportjets). Wooldridge redesigned the bucket (see photos and explanation on back page) to enhance reverse thrust....a big plus when

Standard Features for Wooldridge Sport IB Sportjet

Windshield

- Limited Lifetime Hull Warranty
- Wooldridge Full Support Structure System
- Extended bottom trim plate
- 200HP Mercury Optimax Sportjet engine & jet
- Large removable motor access panel on transom
- Diamond plate swim step covering jet on transom
- Aluminum mufflers
- Fresh water clean out attachment for motor
- Hinged aluminum motor cover
- Built-in, under-floor aluminum fuel tank, baffled
- Secondary fuel feed off tank for kicker fuel
- Meets U.S.C.G. floatation standards on boats under 20'
- Meets U.S.C.G. standards on boats 20' and over

- 1/2" 50 year pressure treated plywood floors covered w/ marine boat decking
- Forward wing for wave deflection
- Side panels covered with marine carpet (17' model only)
- Full length Welded side trays w/ marine carpet (20' models and up)
- Stand-up gunnels with toe kick
- Dual rod storage racks
- Enclosed transom w/ bilge blower
- UV treated vinyl exterior side color & pin stripe package
- Welded bow and stern eyes
- Welded Sport rails
- Welded bow cleat
- Storage enclosure under front step deck w/ locking door on 20' models
- Gas/Water separator
- 6 panel power source, w/ sealed switches

and fuses

- Navigation / Running lights
- 1,250 GPH bilge pump
- Mercury tachometer gauge
- Electric horn
- Back lit fuel gauge
- Large two piece "Walk-thru" windshield w/ tempered glass
- Recessed self bailing diamond plate bow deck
- Windshield wiper for drivers side
- All welded dashboard
- Dash mounted cable steering system
- Two Bentley's "Sportsman" upholstered seats
- Two all-welded aluminum lockable dry storage boxes
- Wooldridge reverse bucket
- Walk-around gunnels w/ non skid

Many options available

you are trying to back off the beach.

The 17' Sport is a specialty boat, and it is a hot rod. It GPS'd 48mph right out of the box, it's small and nimble and agile, yet has lots of room inside for folks and gear.

And, yes, it handles like a Wooldridge, because it is a Wooldridge!

The 20' Wooldridge Sport is also available with the Mercury 200hp Optimax Sportjet.

Boost Sportjet Reverse w/ Wooldridge Bucket and Flow-Tec Linkage!

Sportjet owners have longed for an improved reverse and Glen Wooldridge has created one. Wooldridge boosted the Sportjet reverse by redesigning the bucket to flow water at the best angle for more thrust. Also included: New linkage designed by **Flow-Tec**, which greatly improves shifting ability by taking the pressure off the cable and shifter. You can see it at:

www.wooldridgeboats.com

Go to the Alaskan XL and click on the Sportjet model. You can buy this easy to install, improved bucket direct from Wooldridge Boats for \$699 plus shipping and handling. Call Wooldridge at 206-722-8998.
