

20-foot (Sedan)

Deep "V" in Wooldridge Boat's Super Sport Offshore smooths out choppy inshore AND offshore waters.

SS Offshore Smooths Chop!

Choppy waters, salt and fresh, are the home country for Wooldridge Boat's Super Sport Offshore. And, this gem comes in a variety of configurations to suit many anglers' needs.

Wooldridge designed the SS Offshore from the bottom up to smooth out rougher waters, including those offshore where a swell and a chop can combine to rattle your teeth.

There's major "V" up front, 40 degrees deadrise in the bow in fact, to lessen that initial impact and it tapers to a smooth and stable 18 degree deadrise through the planning surface.

There's more to the story, like a beamy 7' bottom, to enhance ride and stability and open up the cabin and fishing platform for more room underway and aft while fishing.

The beamy Deep "V" design is backed up with extensive internal structure for optimum strength with minimum weight. That means better performance with modest power and spending fewer dollars at the fuel dock.

Now, about the several configurations Wooldridge offers in the SS Offshore. You've

got lots to choose from: an open boat, a sedan with large two-piece walk-thru windshield and canvas or partial hardtop available and

design, it doesn't take a super truck to tow this gem.

The SS Offshore features (naturally) an offshore bracket and there's a roomy, built-in sink/fish box with two-piece cutting board lid standard in the transom. Really, you oughta check out the complete list of standard features on each of the models included in the SS Offshore lineup on the backside of this

- continued on back

23-foot (Sedan)
w/removable hardtop

21-foot w/34" sides & cuddy

Select SS Offshore as sedan, sedan with partial hardtop, cuddy and hard cabin with large two-piece walk-thru windshield.

21-foot w/34" sides & cabin

options galore as far as interior design.

There's a full welded cabin available in the SS Offshore, with sliding windows, bulkhead and locking glass door.

How about a cuddy. You got it mister. With V Berth, a variety of seating and canvas or hardtop to protect from the weather.

Your selection of length in the SS Offshore is just as extensive, with boats ranging from 20'3" to 26'3". Each and every one is trailerable and thanks to Wooldridge's optimum strength with minimum weight

– continued from front

brochure. They are extensive and customer satisfying.

Briefly, the windshield boat (sedan) features a lockable front storage closure that's handy for securely stowing gear. Also at the rear a toe kick panel with canvas curtain adds a fine finish to the transom area. And, of course, that windshield is tall and wide, two-piece, which offers great visibility sitting and standing, as well as protection from the elements.

- under bow cap
- Full length Welded side trays w/ marine carpet
