

Wooldridge Boat's 29' Super Sport Offshore Pilothouse is a boat for "Big Adventures" with all the comforts of home.

29' SS Pilothouse: "Big Adventures!"

Wooldridge Boat's 29' SS Offshore Pilothouse is a big boat for BIG adventures. And, yet, it's easy to tow, launch and retrieve. It takes on blustery open waters with nary a whimper and tucks into a mooring slip nicely.

It's hard to believe this 29-footer is so user-friendly when it comes to power (on the transom and in the tow vehicle) and at the fuel pump. That means more money for fun stuff and less for getting there.

How does Wooldridge do it? It's carefully engineered design with critically placed structure to achieve maximum strength with minimum weight.

That means you can load this boat up with more of the comforts of home, with fishing and navigation accessories for pleasurable long-distance cruising,

fishing and fun. The comforts are many with numerous options to suit your individual wants and needs...ASK!

This boat has the credentials for big water action. The 29'-plus length doesn't include the beefy offshore bracket with displacement box created for single or dual outboard power. You choose. There's plenty of freeboard for blustery waters and 40 degree deadrise in the bow and 18 degrees through the planing surface to smooth it all out.

The 9 1/2' beam enhances spacious room in the pilothouse cabin and more stability underway and at rest. Find a sheltered cove,

set the anchor and let the crab pots do their job while you eat and sleep.

available: full cuddy upholstery, private stand-up head, transom doors, radar arch, full electronics and, you name it.

The Fishing Machine option adds more fuel capacity, additional under-floor fish boxes and self-bailing rear deck. A second helm aft is easy business. Again, simply identify your specific wants and needs.

The Wooldridge 29' SS Pilothouse is ready to get at the best of fishing and cruising....YOUR WAY!

Fishing, cruising and fun. Enjoy it all with the multi-purpose Wooldridge 29' SS Pilothouse. It's easy to tow and ready to cruise. Gull wing door offers easy access to the bow through spacious pilothouse cabin.

Visibility is excellent, in the all welded pilothouse cabin (three-panel, reverse angle windshield with panagraph wipers). Lots of room in the cuddy for bed time and there's a forward walk-around, bow rails, huge transom fish box, locking rod locker doors and 97 gallon fuel tank, standard. Of course steering is hydraulic.

The most popular option is the full pilothouse cabin package which includes the 3' wide dinette with flip-flop backrest which makes into bed (7 1/2'), large cabinet with built-in electric fridge, diesel stove/heater, and freshwater sink with electric pump. Also
