

Alaskan XL

The Wooldridge AK XL is a dream come true for the boaters looking for the ultimate in handling, load hauling and fuel efficiency in an outboard jet boat. Wooldridge Boats created the Alaskan XL for those who wanted a bigger outboard jet boat patterned after the light and agile Alaskan and AK II. It is that, with a wider and longer planning surface, higher sides and larger windshield. This biggest brother in the Alaskan line is built to handle the most extreme river fun. Wooldridge builds the AK XL in lengths of 18' 10", 20' 10" and 23' 10" as a windshield and open model with console or tiller steer. The XL has a 76" bottom, 80" wide floor, 29" sides with a 98 1/2" beam. As with nearly all Wooldridge boats it is available with our large two-piece walk through windshield for optimum visibility and access. There's a three-piece aft helm windshield model with step-through door available on 20' length boats. Tailor made for the full range of outboard jet motors, the AK XL features the exclusive Wooldridge jet tunnel, formed rib hull and extensive internal structure. The exclusive Wooldridge jet tunnel is a key to superior shallow water performance. The tunnel acts as a skeg, enhancing traction in turns and the ability of this jet boat to maneuver through obstacle laden shallows. The tunnel also helps flow clean water to the jet, directing "clean" water in for maximum driving force. The Wooldridge tunnel moves the jet foot up out of harm's way (see illustration on back page) for less exposure to shallow water rocks. Of course another key to the Alaskan XL's incredible load hauling ability is the Wooldridge design. The 1/4" bottom gauge down the center 13" of the hull demonstrates Wooldridge's commitment to strength. Wooldridge engineers strength without unnecessary weight utilizing a tough and proven full support structure system that allows for optimum fuel efficiency. The formed rib hull makes the AK XL one of the most aggressive cornering and handling boats in the entire Wooldridge line. The 76" bottom also ensures level and stable free drifting from starboard to port, bow to stern. It's a handsome boat as well with large side vinyl standard. Check out the rugged broad square bow, standup gunnels and flat walk-around with non-skid. There's also the assurance of the Wooldridge lifetime limited hull warranty to the original buyer.

Specifications Alaskan XL	18'	20'
Length	18'10"	20'10"
Beam*	98 1/2"	98 1/2"
Side Height	29"	29"
Side Gauge	1/8"	1/8"

Alaskan XL Standard Features

Windshield

- Limited Lifetime Hull Warranty
- Wooldridge Full Support Structure System
- Exclusive Wooldridge jet Tunnel
- Formed rib bottom, with 4 corrugations, 2 on each side of keel
- Extended bottom trim plate
- Center of hull reinforced to 1/4" thick by 13" wide through planing surface
- Built-in, under-floor aluminum fuel tank, baffled
- Secondary fuel feed off tank for kicker fuel
- Meets U.S.C.G. floatation standards on boats under 20'
- Meets U.S.C.G. standards
- 1/2" 50 year pressure treated plywood floors covered w/ marine boat decking

Console - added features

- Welded center console with storage and shelf

Tiller - deleted features

- No windshield wiper
- No storage boxes or seats

- Full length Welded side trays w/ marine carpet
- Stand-up gunnels with toe kick
- Dual rod storage racks
- Full width self bailing transom shelf
- UV treated vinyl exterior side color & pin stripe package
- Welded bow and stern eyes
- Welded Sport rails
- Walk-around gunnels w/ non skid
- Welded bow cleat
- Diamond plate bow cap
- Gas/Water separator
- 6 panel power source, w/ sealed switches and fuses
- USB and 12V accessory outlets

- LED Navigation / Running lights
- 1,250 GPH bilge pump
- Electric horn
- Back lit fuel gauge
- Large two piece "Walk-thru" windshield w/ tempered glass
- Recessed self bailing diamond plate bow deck
- Windshield wiper for drivers side
- All welded dashboard
- Dash mounted cable steering system
- Two Bentley's "Sportsman" upholstered seats
- Two all-welded aluminum lockable dry storage boxes
- Storage under front step deck
- Recessed diamond plate step deck

Console - deleted features

- No windshield wiper
- No storage boxes or seats

Outboard Jets Run Best with Exclusive Wooldridge Tunnel

CORNERS BETTER

Wooldridge Boats exclusive jet tunnel offers the best in shallow water running and handling in challenging river running conditions. The tunnel allows

RUNS SHALLOWER

the jet foot to be raised for protection, a clean water feed and ram effect. It also provides traction for controlled and predictable performance in tight quarters.
