

Deepwater Charter

OFF THE CHARTS, OFFSHORE PERFORMANCE!

Inspired by an environment off the waters of the Pacific Northwest's continental shelf, the Deepwater is our flagship offshore platform. Constructed in a robust style the seasoned commercial fisherman can appreciate, but with refined comfort and practicality the simple weekend warrior will find truly impressive. The waters off the PNW coast can be downright insensitive, with zero remorse for those who dare to navigate them. This is why the Wooldridge Deepwater features higher than average sides, self-bailing deck and a wave taming 50-degree deadrise to temper the attitude of the Pacific's many moods. The level headed reverse chines allows for instant plannability, and balances out with for a smooth ride. The Charter version of the Deepwater boasts a large walk-around cabin that combines form and functionality to give you the most comfort without sacrificing available space. Rear and driver side sliding doors allow easy access to the cabin. Premium suspension seating for driver and passenger, and spacious bench seating with generous storage throughout is only the start. A step-down cuddy for the head specifically designed for privacy and comfort for on those longer than anticipated days. For the cabin a diesel fueled furnace is sure to motivate even the most sensitive significant others to join you for a day on the water. The latest in Garmin electronics will also safely navigate you to those secret fishing grounds! Outside of the cabin is equally as impressive, designed by professional charter captains, the massive fishing deck offers 360 degrees of walkable space with large twin under-floor fish boxes, rod holders conveniently spaced in just the right locations and a comfortable rear helm station to steer fisherman into their targeted quarry. Multitudes of creature comforts and fishy features round out this meticulously thought out craft, and why not coming from a 100 plus year old tradition of family boat building experience in the Pacific Northwest! Truly the ultimate offshore sportfishing boat for charter captains and the serious angler alike! Inquire today!
