

Rogue MODEL

18' Rogue Tiller shown

The ROGUE: Run with the odds in your favor.

Wooldridge Boats is the undisputed leader in revolutionary outboard jet boat designs and cutting-edge shallow water concepts. For over a half century, Wooldridge Boats has introduced new innovations that have literally altered and improved jet boating as we know it today. This next revolutionary innovation however just may be the most important design-altering improvement yet! Yes, this new Wooldridge design will change the outboard jet boating landscape forever. Wooldridge Boats is very proud to introduce the ROGUE! We have combined all the years of proven tried-and-true design concepts with the benefits of HDPE! (high density poly ethylene) Curious about what HDPE is? We're glad you asked. Here are a few of the benefits:

- Durability & impact resistance
- UV & chemical resistance
- Slick surface decreases shallow water incidents
- High buoyancy

The new Rogue model is fully designed using our quintessential Wooldridge outboard jet hull shape and shallow water qualities. Imagine the ultimate on-the-water performance combined with a super slick durable and resilient material! Difficult to fathom, we get it! Envision the possibilities of reaching new fishing holes and hunting grounds all the while getting there with added confidence! The new Rogue model is different. It's a deviation. The Rogue is a renegade but sometimes embarking on a new path makes all the difference in getting you where you need to go. Get there with confidence in the new WOOLDRIDGE ROGUE!

BOAT SPECIFICATIONS

Rogue

Length	16"	18'	20'

Wooldridge Boats exclusive jet tunnel offers the best in shallow water running and handling in challenging river running conditions. The tunnel allows the jet foot to be raised for protection, a clean water feed and ram effect. It also provides traction for controlled and predictable performance in tight quarters.
