

## Super Sport Drifter Inboard 20', 23' & 25' Models

### All The Power You Need, When And Where You Need It.

The Wooldridge Super Sport Drifter Inboard is just that, a Super Sport. The super wide 7' bottom means you can get on step in a heartbeat and this boat will surely pack a heavy load of persons, game and gear. It also pulls effortlessly, thus is a favorite among the Skiing and Wakeboard crowd. Super Sport Drifters, like all Wooldridge boats, are designed for strength without unnecessary weight. The design includes a tough and proven structure system. That means better performance on the water and minimal fuel consumption. It's easy to tow and easy to launch. The weight saving also means the boat floats higher and drafts less water at rest. You can free drift in less water and you'll get on step quicker with the wide bottom. Super Sport Drifter inboard jets are available as an open console boat or with the large two-piece walk-thru windshield. The windshield model has a recessed, self-draining bow and forward walk around with wing for wave deflection. Visibility is great from the helm, both standing and sitting. Everything is located where it should be, gear stows conveniently under floor and in the bow. There's plenty of elbow room for everyone and it all means more fun and more success on the water. The built-in under-floor 50 gallon fuel tank provides great range and extra room above board for family or friends. The Super Sport Drifter Inboard also has a "fishing machine" option available on 23' boats and larger. The motor is moved forward 2' with a full walk around giving an open path in the entire transom area. The rear deck around the motor is raised to cover the drive line. Included are two 50 gallon saddle fuel tanks which increases range for extra-long hunting or fishing excursions. Full length welded side trays with marine carpet and a handy full width transom shelf provide convenient access to tackle and rods. The stand-up gunnels with toe kick assure stable comfortable fishing all day. This Wooldridge is available with the full range of V-8's to suit boater needs. The standard pump is the load-hauling Hamilton 214. Of course the Wooldridge Super Sport Drifter carries a lifetime limited hull warranty to the original buyer.
