

## Sport Offshore Model

### Navigate Offshore in Comfort and Style!

The Wooldridge Sport Offshore is a versatile, multi-purpose boat designed to excel in a wide range of environments, from saltwater, large lakes, rivers, and bays. With two available sizes, the 18' and 20' versions offer flexibility for both smaller, close-to-home waters and larger more expansive bodies of water. The boat's design includes key features like high sides, ultra-wide 78" bottom, 30-degrees of deadrise in the bow that transitions to 16 degrees in the planing surface for a smooth ride. Features such as an offshore bracket with displacement pod improves stability and enhanced buoyancy when trolling or fishing with multiple anglers. The bracket includes a fish box and cutting board, adding practicality to its design.

The Sport Offshore comes in two configurations: center console or windshield. With its great two-piece walk-through design, our windshield version makes for easy access to the bow and offers great visibility from the helm. Built with durability in mind, the Sport Offshore is lightweight yet strong, engineered by a four-generation boat manufacturer and backed by a limited lifetime hull warranty. The design makes it easy to tow, is fuel-efficient, and perfect for extended trips or quick outings. With ample storage and plenty of deck space, this boat is designed for both comfort and performance, ensuring you'll have a great time fishing or simply enjoying your day on the water. Whether you're looking to fish in smaller waters or venture into larger seas, the Wooldridge Sport Offshore has you covered.
